GIPA Disclosure Log

This disclosure log is prepared in accordance with section 25 of the *Government Information (Public Access) Act 2009* (NSW).

The disclosure log provides information about access applications received by RSPCA NSW where (1) we have decided to provide access to some or all of the information requested, and (2) we consider that the information may be of interest to other members of the public. Not all access applications are reflected in this log (for example, requests for an applicant's own personal information, or requests that are not deemed to be of broader interest to the public).

For access applications that are included, the disclosure log records the following details:

- the date the application was decided;
- a description of the information to which access was provided in response to the application; and
- whether any of the information is available from RSPCA NSW to other members of the public and, if it is, how it can be accessed.

Ref.	Decision date	Description of the information released	Type of release	Availability of information	How to access the information released
