

SURVIVAL HABITAT

How well can you survive each habitat?

Write down your 5 adaptations

1. _____

2. _____

3. _____

4. _____

5. _____

Using your 5 adaptations above. How well can you survive each habitat?

(Give 1 point per adaptation). BONUS: Can you think of 3 more adaptations to increase your survival?

Habitat 1	Habitat 2	Habitat 3
1. _____ 2. _____ 3. _____	1. _____ 2. _____ 3. _____	1. _____ 2. _____ 3. _____
Total Points:	Total Points:	Total Points:

Habitat: _____

Using your 5 adaptations, think of another habitat where you will survive. Write your habitat or draw in the space below.

BONUS: Include 3 more adaptations that you think will help your animal survive.

1. _____
2. _____
3. _____

ADAPTATIONS

An adaptation is a **special feature** or behaviour that helps an animal **survive** and **reproduce** in its environment

Why?

Find food

Escape predators

Physical conditions

Movement

Find a mate

Circle which dog adaptations you can see in the following video.

BONUS: Can you sort them into structural or behavioural adaptations?

Sharp canine teeth

Sniffing

Barking

Living in a pack

Good hearing

Good sense of smell

Tail wagging

Strong muscles

Coat of fur

Structural adaptations: (a physical feature)

Behavioural adaptations: (an action)

How can we improve our care for dogs using the following adaptations?

Adaptation:
Sharp canine teeth

1. _____
2. _____
3. _____

Adaptation:
Thick coat of fur

1. _____
2. _____
3. _____
